Click Warehouse Processing (EWM) Warehouse Monitor Create Inbound Deliveries Deliveries Run Outbound Process Deliveries Shipping CockpitP

The screenshot displays the SAP Fiori Launchpad Admin Group interface. At the top, there is a navigation bar with the SAP logo, a 'Home' dropdown, and several menu items: 'Event Handling', 'Message Monitoring', 'Advanced Compliance Reporting', 'Query Browser', 'Manager Approvals - My Inbox', and 'Warehouse Processing (EWM)'. The 'Warehouse Processing (EWM)' menu item is currently selected. Below the navigation bar, there is a section titled 'Warehouse Processing (EWM)' which contains a grid of app tiles. The tiles are arranged in two rows. The first row includes 'Warehouse Monitor', 'Create Inbound Deliveries', 'Run Outbound Process Deliveries', 'Shipping Cockpit Planning', 'Shipping Cockpit Execution' (highlighted with a blue border and a blue callout box), 'Test RF Environment', and 'Pack Outbound Deliveries'. The second row includes 'Count Physical Inventory', 'Warehouse KPIs Operations', 'Pack Warehouse Stock', 'Process Warehouse Tasks', 'Process E-Commerce Returns', and 'Process E-Commerce Returns Customer Returns'. Below the 'Warehouse Processing (EWM)' section, there is another section titled 'SAP Fiori Launchpad Admin Group' which contains a grid of app tiles. The tiles in this section are 'Troubleshooting Note', 'Fiori Launchpad Intent Analysis', 'Fiori Launchpad Designer', 'Fiori Launchpad Checks', 'Fiori System Alias Check', 'PFCG Role maintenance', and 'Application Log'. At the bottom of the screen, there is a dark grey banner with the text 'On the EWM Fiori Launchpad, select app Shipping Cockpit Execution'.

Click the text box

By default, the system displays TUs with Deliveries which are due for Delivery today. You can change the search criteria via the Search functionality.

In this example, we use the Transportation Unit which is due for Delivery today.
